greenyWATER

The Original

MADE IN GERMANY

Together with VitaJuwel®, we have developed the greenyKARAFFE, which not only looks good, but is also equipped with special gemstone modules for water refinement. The scope of delivery includes two carafes with two different gemstone modules.

Good drinking water.
naturally refined.

Buona acqua potabile,
naturalmente raffinata.

Combination high-end filter from greeny+ filters the majority of all harmful substances and flavourings from your drinking water.

riva

The greenyKARAFFE from VitaJuwel®

The carafe energises the water after purification and renaturation through the exchangeable gemstone modules in the base.

The Tesla® coil is located in the base plate of the greenyWATER, accessible through a drawer, which ensures the hexagonality of your water.

The new
greenyWATER Carafe
and the exclusive gemstone mixtures
